DANIEL NGUYEN

San Jose, CA | (669) 272-5523 | danieltn91@gmail.com
www.linkedin.com/in/danieltn91 | https://danieltannguyen.github.io

Experienced System Integration Engineer with over 7 years of success in hardware system integration, testing, and troubleshooting in complex, safety-critical systems. Proven ability to work cross-functionally and deliver high-quality medical technology solutions. Seeking to leverage hands-on expertise and problem-solving abilities to contribute to cutting-edge engineering projects.

SKILLS

- Hardware Integration & Validation
- Electrical Debugging & Test Automation
- Medical Device Systems Integration
- Oscilloscopes, Multimeters, Bench Tools
- Python, C#, Visal Basic, .NET, SQL
- Circuit Analysis, Schematic & Troubleshooting
- Telnet Command (CLI), Jama, SAP, Xpediation
- Team Collaboration & Mentorship

WORK EXPERIENCE

HW System Integration Engineer | Varian, A Siemens Healthineers Company, Palo Alto
(05/2018) – Present

- Designed and implemented integrated systems for radiation oncology devices, ensuring seamless operation across hardware, firmware, and software.
- Conducted hardware bring-up, signal probing, and power delivery validation using tools like Telnet Command Line, oscilloscopes and multimeters.
- Collaborated with cross-functional teams including Electrical Engineer, Software/Firmware, and Mechanical team to define integration strategies and debug critical system issues.
- Developed and executed system-level tests, calibration procedures, and troubleshooting workflows for electromechanical subassemblies.
- Created internal software tools using C#/.NET/SQL to streamline equipment monitoring, efficiency tracking, and operational reporting.
- Reviewed and maintained test cases in Jama for both System Engineer, Software Automation, and Product Verification team, ensuring traceability and FDA-compliant workflows.
- Used IBM Rational ClearQuest to log issues and track progress through resolution.
- Mentored new engineers and technicians, ensuring smooth onboarding and adherence to high-quality integration standards.

EDUCATION

B.S in Software Engineering | San Jose State University, San Jose
Graduation Year (2017)

CERTIFICATION & AWARDS

- Google IT Automation with Python-Coursera.
- C# Intermediate-Udemy
- Bravos Recognition Award-Varian (for excellence in system integration support)
